

Exceptional quality and operational excellence are the shared values that contributed to our employee-created mission statement:

To produce the freshest, best tasting tomato products in the world.

ABOUT US

For four generations, the Red Gold family has been working with local farm families to grow the highest-quality best tasting tomatoes in the world. Starting as a father and daughter simply trying to help their country – it's now become a full-time operation with over 40 partnerships with Midwestern growers. The Red Gold family story begins in March of 1942 when the government asked citizens to step up and help the war effort by supplying food for our troops. When Grover C. Hutcherson heard this message, he and his daughter Fran purchased and rebuilt an old abandoned cannery building in central Indiana. The cannery had been destroyed on three separate occasions by fires and a tornado but they managed to rally the community and persevere.
